\$10 REWARD.

A reward of \$10 will ge paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one inch square or smaller, will be accepted unless made of metal. No wood base cuts of this size will be used Wood cuts are dangerous to forms and press.

Entered at the Postoffice in Tonopah as second-class matter

## A Complex Condition

Through legislative action Nye county is desirous of obtaining a small portion of Esmeralda county that a reduction in expense will result from property owners in this district, and also to secure compensation for police and fire protection that is now afforded residents of the adjoin-

The parcel of land in question is along the western boundaries of the Tonopah mining district, and includes a small portion of this town. That section wherein the Tonopah high school building is located is in Esmeralda county, as is the several mining properties that are conduct ing development work west of the Tonopah Extension. Under present conditions Tonopah is affording fire and police protection to the Esmeraida residents without the adjoining county incurring the expense. The Esmeralda officials have made no move toward recompensing Nye county for the extra expense, nor are they likely to do so. Justice court suits. wherein the actions were committed in Esmeralda county, have been paid for by the Nye taxpayers, and now that an attempt is being made to remedy conditions, without Esmeralda suffering a huge loss of valuable ground, a vigorous protest is heard from the southern city.

When the plan was first placed before the Goldfield taxpayers, for the annexation of the small parcel of ground by Nye, it was stated that an even exchange would be made. Nye county was willing to concede a larger territory in the Diamondfield district to Esmeralda. The offer was refused and in its stead a demand was made for the entire southern part of Nye. Such a division would practically divide Nye in half, and miles and miles of rich agricultural lands, in addition to railroads, would go for the exchange of the small parcel desired by this county.

Notwithstanding the protests of Esmeralda, the bill calling for the annexation of the land in question is before the assembly and there is an excellence chance of its passage through both branches of the legislature. Goldfield did not evince a disposition to play fair and can now be prepared to suffer the consequences.

# A Measure Without Merit

Assemblyman Sullivan of White Pine has introduced a bill in the lower house of the legislature authorizing the state treasurer to deposit state funds in the state and national banks of Nevada, Mention was made of this measure by the Bonanza on several previous occasions and each time it was pointed out that should the bill become a law it would work to the detriment of the state banks.

Under the present laws of this state the state banks pay a license for the purpose of transacting business. In addition they pay city licenses and also endeavor to provide for the maintenance of the state. On the other hand the national banks refuse absolutely to pay one cent toward the upkeep of the state. As long as the national institutions do not contribute to the state, nor pay licenses for the privileges of conducting a banking business, it would be a poor policy to encourage such institutions. The state receives no benefit for their presence, while on the other hand, several thousand dollars in revenue is secured through the state bank li-

The Sullivan bill should be amended as to permit the deposit of state funds in state banks only.

# Public Spirit Needed

In taking the moving pictures of a scenario, the plot of which is laid in Tonopah, the moving picture men have secured many scenes of interest to the public, part from the story.

At a meeting of the citizens it was proposed to have the same camera men take pictures of the mining industry and the mines of Tonopah, to be shown immediately in the moving picture weeklies, as an industrial educational picture without the drama being interspersed, and to immediately release it in 30,000 cities having moving picture shows, thus advertising Tonopah before the whole world,

The value of this picture aids promoters of mining companies to interest capital, who see the mines as they are and not as they think they are, and who will listen to the promoter when he tries to interest them in projects here. This brings the development of new mines to the front, pay roll of miners is larger, more men are working and the men buy their groceries, clothing and supplies as well as the mining compa nies thus started, which means the bringing of many thousands of dollars to Tonopah.

In raising this money to hire the film made and pay the expenses of it, contributions were asked for and a number have come forward with their donations, it is not a donation for charity, nor for a celebration to entertain the people who are here, but is an outlay of a little money to

Merchants expect the miners and people here to patronize the home stores, and kick because the mail order houses send catalogues to Tonopah, yet when approached by a proposition to contribute to something that would foster the building up of Tonopah and make home trade for them, shey crawl into their shell and grumble at an enterprise that would benefit them by increasing the number of mines, increasing the population, and bringing trade to their doors, and those who do contribute to this cause will find it to their betterment, for it is the first time the mining industry itself has asked the people to build up the business greater than ever. The older mines are not so vitally interested in it as the coming mines that make a future for Tonopah, even beyond that of the ones now producing bullion,

This is the time for the public spirited and ambitious people to build

It has been suggested that the ex-presidents of the United States form a club. What a jolly organization it would be,
